PICTURE OF THE WEEK!

RED REEF LOBSTER— Seldom seen in the day, this guy is usually found under ledges and in caves in water at least 50' deep. Colors range from bright orange to deep purple with white spots and markings. Long sensory hairs cover much of the body and claws. They molt every six weeks and grow to about 8" long. Also known as the "Hawaiian Lobster"!

DATE OF REPORTING: SEPTEMBER 13, 2011
