PICTURE OF THE WEEK!

A small pod of spinners has been passing through our waters....possibly headed towards La Perouse for the evening?????? They are curious animals who love to check out the divers and the funny yellow scooters that move them through the water! We did not hear the whales at all this week underwater but we have our mantas and dolphins back!

DATE OF REPORTING: MAY 1, 2011

AIR TEMPERATURE: 86 degrees

WATER TEMPERATURE: 76.5 degrees at 60'

VIZIBILITY: 50' @ 60' and improving.....

STAFF COMMENTS: " Two young female mantas were spotted in the bay today. We got one photo and compared the markings in our log and determined they were both new to our area. They were quite skittish but in time they will get used to us, our "gentle divers" and our " NO HUNTING " policy. We brief our divers not to chase the animals. Let them to come to you."

WE TAKE VIDEO & PHOTOS DAILY OF OUR DIVERS AND POST THEM TO OUR FACEBOOK PAGE. CHECK IT OUT!
