PICTURE OF THE WEEK!

ROCKMOVER (DRAGON WRASSE)-This interesting and unique wrasse has filamentous extensions on their fins and swim in a swaying motion, like drifting seaweed. Check in the sandy areas for these guys. We love to go exploring in the Sand Flats. Some of the most interesting and unique critters live in and around the sandy , shallow areas.

DATE OF REPORTING: JUNE 26, 2011

AIR TEMPERATURE: 85 degrees

WATER TEMPERATURE: 77 degrees

VIZIBILITY: 80'

STAFF COMMENTS:

YEAH! We have clear water again! Last week's south swell is GONE! Diving this weekend was awesome and getting better everyday! See you in the water!
