

SCUBA LUV MAUI DIVE REPORT
KEAWAKAPU, MAUI
“CRITTER OF THE WEEK”
(808) 870-2738

MAY IS “ URCHIN MONTH” !!!

BLUE SPOTTED URCHIN- Very uncommon in Hawaii ; spines are hair-like and very toxic; spineless areas contains rows of iridescent blue spots that can expand and contract; grows to about 8” across! When found, they are usually at 50’ or more, however, we saw this guy on the way back from our scooter dive in very shallow water....
