## KEAWAKAPU BEACH

### “CRITTER OF THE WEEK”

### (808) 870-2738

**MANTA RAY — “hahalua”**

This week we kinda got a “double wammie”...a huge plankton bloom PLUS a coral spawning!!! Even though our visibility dropped , the critter population improved! When we went out with the scooters we had two mantas feeding right in front of us at the base of the outside reef! Always such a treat to see those guys....especially when they do not feel threatened and you get the pleasure of watching them soar.
